Management Report

Management is responsible for the integrity of the accompanying financial statements and all other information in this Annual Report. It is the responsibility of management to prepare financial statements in accordance with generally accepted accounting principles in Canada.

The integrity of the financial records from which these financial statements are prepared is largely dependent on management's systems of internal accounting controls. The purpose of such systems is to provide reasonable assurance that transactions are appropriately recorded in order to permit preparation of financial statements; and, assets are properly accounted for and safeguarded against loss from unauthorized use. Underlying this concept of reasonable assurance is the fact that limitations exist in any system of internal accounting controls based on the premise that the cost of such controls should not exceed the benefits derived therefrom.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. The Board meets periodically with management to satisfy itself that management's responsibilities are properly discharged, and reviews and approves the financial statements and annual report.

The Provincial Auditor of Saskatchewan has audited the financial statements. His report to the Members of the Legislative Assembly, stating the scope of the examination and opinion on the financial statements, appears on the following pages.

The financial statements have been examined and approved by the Board.

AUDITOR'S REPORT

To the Members of the Legislative Assembly of Saskatchewan

I have audited the statement of financial position of the Beef Development Board as at March 31, 2010 and the statement of revenue, expense and change in net assets for the year then ended. The Board's management is responsible for preparing these financial statements for Treasury Board's approval. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Board as at March 31, 2010 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Acting Provincial Auditor

The Board administers the Plan through the Beef Development Fund.

2. Significant Accounting Policies

Pursuant to standards established by the Public Sector Accounting Board, the Board is classified as an other government organization. These financial statements have been prepared in accordance with Canadian generally accepted accounting principles applicable to the public sector and include the following significant accounting policies:

a) Research and Development projects

Payments for research and development projects are recorded as project expenses when approved and the eligibility criteria, if any, have been met by the recipient.

b) Revenue Recognition

Interest income is recognized as revenue when earned.

c) Receivables/Payables

These financial instruments are both interest and non-interest bearing and are due or payable within the next year. Due to this short-term maturity, the carrying value of these financial instruments approximates fair value.

3. Related Party Transactions

Included in these financial statements are transactions with Saskatchewan Crown agencies related to the Board by virtue of common control or significant influence by the Government of Saskatchewan.

The money of the Beef Development Board is deposited in the General Revenue Fund. Under this arrangement, interest is calculated on the net position of the Beef Development Board. Interest is paid by the General Revenue Fund on a quarterly basis using the Government's thirty-day borrowing rate. The Government's average thirty-day borrowing rate for 2009/2010 is 0.27% (2008/09 – 1.95%).
